UTOPIA ARTS

Utopia Arts' Frances Rifkin presents this Interactive, participant led training workshop to demonstrate how Forum Theatre techniques and Boal's Theatre of the Oppressed teachings help organisations examine their organisational processes and practices for fresh perspectives and change inside and out.

For more than 40 yrs Fran's work has been informed by a continual dialogue around society and questions of ethics and participation for All.

Utopia Arts Training brings Fran's expertise directly to your organisation. Questioning and challenging, interrogating for innovation and future stability.
